// summary

Developer for **13+ years**, front-end focused (**Vue, Nuxt, Angular, TypeScript**) with a solid back-end foundation (**Ruby on Rails, Node.js**). I build whole products — from database to pixel — and after hours I run an ecosystem of **five products in production**, including an app shipped to the App Store and Play Store.

// stack

interface

Vue · Nuxt · Angular · TypeScript · Tailwind CSS · Flutter

server

Ruby on Rails · Node.js · PostgreSQL · Redis · Supabase

quality & operations

Jest · Storybook · Docker · GitHub Actions · Vercel · Firebase
